

Workshops

“The class has a lovely atmosphere. The ability to decide upon my own learning supported by an open minded tutor has been really enjoyable.”

Arts and Creative Industries Workshops

We have a series of Creative Industries Workshops in the following areas:

- Photography
- Stained Glass
- Ceramics
- Printmaking
- Fashion

These workshops have been carefully designed as a direct progression route from our community learning programmes. The aim of the workshops is for you to further your work and raise your profile within the creative industries sector, either through producing work for exhibition, competition or employment; or potentially as a self-employed entrepreneur producing work for sale.

You will develop your existing knowledge and skills through full access to a wide range of specialist equipment together with professional support from a member of staff.

Whilst we will provide most basic materials, you will be expected to provide any specialist materials. You should have the necessary ambition and drive to self-direct your own study and be active in raising your own profile or be pursuing a career within the creative industries sector.

If you wish to enrol on a workshop class, you must have completed at least 20 hours on one of our intermediate or improvers' courses, within the last three years or hold an equivalent level of knowledge and skills.

To join the workshops you may be required to complete a short telephone interview with a manager to assess your skills and knowledge. These workshops are an exciting addition to our portfolio of courses and we look forward to seeing successful learners progress through them.

CASE STUDY

Neil Walsh

Ceramic Workshop

It's been a really interesting experience learning how the various clays respond to glazes, which clays are better suited to hand building and which are more delicate.

It's also been a steep learning curve realising the reactions inside the kiln are not always what you intended! There is alchemy involved and it makes you think on your feet. It's been inspiring to watch the full range of styles of the other learners and just how varied ceramics can be!
