

Using the Idea Store eLibrary [powered by Overdrive] on Kindle Fire

Installing the Overdrive App on Kindle Fire

- On the Kindle fire pull down the top information bar and touch the “more +” symbol.
- Within Settings select the Device option.
- Set the “Allow Installation of Applications” to On.
- Visit <http://www.overdrive.com/software/omc/AndroidEULA.aspx>
- Accept the terms and conditions at the bottom by selecting “I Agree”.
- The app will now download, once complete pull down on the top information bar to view notifications.
- To install the Overdrive app tap the ODMediaConsoleSetup files and then select “Install” when prompted.
- On completion select “Open” to view the app.

Accessing the App after initial setup

- From the main menu select Apps
- Once in the Apps area from the menu under the information bar select the “Device” option to locate the Overdrive App
